Space & Underwater Tourism Universal Summit

SEPTEMBER 22, 23, 24 2021
Marbella

POWERED BY:

"El viaje de iO, la aventura de aprender" (The Journey of iO, the learning adventure) is an educational, leisure and tourism project led by CiE (City of Stars). Thanks to the Portable Planetarium, CiE spreads its members' passion for Astronomy and the Space Race, inspiring scientific enthusiasts.

Triton Submarines EMEA

ECHO: EXTREME CAVE HABITAT CAVE ONE

CHILL-ICE is a habitat built jointly by students and staff at Kwantlen Polytechnic University in Canada. It was osted by a team of young researchers last summer in western-Iceland. Here, two small crews of 3 astronauts, trained how it would be to live inside a lunar cave.

PISCES VI SUBMARINE

The second edition of SUTUS will host the latest advances and updates of the submarine "PISCES VI", Thanks to Scott Waters. The objective of this submersible is to allow the access to those areas of the ocean that are so little known to the general public. You will be able to watch realistic images of the experience that the submarine offers.

THE EXPLORERS

This project aims to make the largest visual inventory ever of the Earth's heritage. View some of the most stunning images that The Explorers has captured in 4K and 8K on UHD screens.

Photos from
The Explorers

Since 2001 it is possible to enjoy the virtual tours and 360° photographs of this company, which has been incorporating new elements such as the Dron and the Zeppelin, available to see at SUTUS.

SOCKET V3: POLO CONTENIDOS DIGITALES

Beyond Earth. Virtual tour through the planets that surround us. Enjoy and learn by interacting in Virtual Reality with the solar system. User experience in VR, a tour of adventures through the Oculus Quest.

The world-renowned Tesla will also be present at SUTUS 2021 in a very special way: you will be able to behold their electric car models on site.
